

COMPACT GARAGE DOOR

SPACE-SAVING ROLLER GARAGE DOOR: TECHNICAL DATA SHEET 2

Suitable for residential applications as a garage door, the Compact is individually made to specific user requirements. The Compact Garage Door has been designed specifically for openings where room above or to the side of an opening is limited. Remote control operation by radio frequency rolling code key fobs, courtesy light, safety features, and manual override all as standard. Internal or external face or reveal fit.

APPLICATIONS

Domestic garages with minimal space above the opening. The Compact has smaller slats, enabling a reduced box size.
